THIS office has for many years specialized in made-to-order lists following the specifications of the buyer as far as possible. We long since discarded the stock list idea as antiquated, unacceptable and out of conformity with modern business requirements.

When you have Lists needs to fill, we ask that you communicate with us. We handle also all the details of Direct-Mail campaigns. We have ample facilities and extensive quarters.

Our Addressing and Mailing Departments are equipped for handling rapidly, orders of any size. We relieve our customers of all detail and they feel safe in making their consignments of postage and expensive enclosures to a house like ours so well known for its standing and responsibility. Institutions and Individuals are Known by the
Character of their Service

THE Mutual Benefit Life Insurance Company, Newark, N. J., has enjoyed an unusual reputation as a purely mutual institution. Since its organization, in 1845, it has been dominated by the one thought of service to policyholders. Its beginnings were small, but the foundations were firmly laid. The Company has grown steadily from year to

year until it is one of the largest in the country. It is not by accident that the Mutual Benefit has grown so consistently for over three-quarters of a century; but rather because of its strict adherence to the true spirit of mutual insurance and ideals of service which have made it unique among the companies of the world.

New Jersey Freie Zeitung

The only German Daily paper in the State

Published Every Morning

(Established 1858)

DAILY AND SUNDAY for Sixty six years the "Freie Zeitung" has been an ever welcome morning visitor in the homes of the thousands of German-Americans throughout this city, county and state.

As a first class family newspaper, with a capable staff, and the Associated Press telegraph and cable service, it has a powerful influence, its editorials and news matter being widely quoted and copied by other newspapers.

As an advertising medium the high quality of its home circulation and the fact of its having an exclusive field, produces excellent results for stores, real estate agents, banks, and every good, honest proposition, as its perpetually well filled advertising columns plainly testify

Newark is a German American city, and any advertiser who attempts to cover it without using the German American newspaper deliberately cuts himself off from the business of a very large proportion of the population

"Organized Effort on Behalf of Our City"

The conception of Chamber activities is embodied in one of the adopted slogans "Organized Effort on Behalf of Our City" and the Chamber is a success only to the degree that this effort is extended and service rendered impartially, fearlessly and unselfishly for the benefit of the community. The Chamber has made great strides in further developing the comprehensive character of the organization, which today is more general in scope and as an organized body through which all citizens may work for the advancement of the civic and commercial welfare of the city. It is non-political and non-sectarian. It voices the opinion of a membership composed of all shades of the light and of all lines of commercial and professional activity. It is the voluntary, coactive contribution of public-spirited men and women to the common good."

INDUSTRIAL DEPARTMENT of MANUFACTURERS

ITS OBJECT

LOCALLY —To stimulate buying within our own borders.

NATIONALLY —To catalogue a diversified industrial center throughout America made possible by accessible directory libraries maintained mostly by business organizations in all principal cities.

NOTE—In the compilation of this department every effort has been made to list herein all manufacturers in Newark and, by special contract, others contiguous to Newark.

To determine a manufacturer, the directory published in 1912 by the Newark Board of Trade known as "Newark Made Goods" was used as a basis and the omission of any firm implies no unfavorable discrimination.

The difference between

Reference and

Creative media

is their direction

The seller's efforts to stimulate demand is well carried by outgoing, extensive, display media, but—

he should remember that initiative rests with the buyer, and when the hunt for the goods begins, creative media which may have built up the demand, are at a disadvantage

It is the difference between coming and going.

The creative advertising is going after the prospect, to make him want to buy, but when you have him coming, reference media should be used to connect the demand with the local supply. Every effort should be made to direct the demand to the goods advertised, at the point where they may be seen.

It is here that reference media, directories, find their logical place in the cycle of the sale.

STREET DIRECTORY

CONTAINING A LIST OF THE STREETS, AVENUES, ALLEYS, COURTS, ETC.

The Street Directory gives the location of each street, and shows what other streets, avenues or places run from or across it, with the number at which they intersect.

From this list the location of any number on a street can be easily ascertained, as, for instance, wishing to know what part of Broad Street No. 763 comes, turn to Broad Street, and you find that Bank Street intersects it No. 759 right side, and Market Street at No. 787 showing that No. 763 comes on the right side of Broad Street between Bank and Market.

GUARANTEED 99½% PERFECT

This book is as correct as our almost one-half century of making directories can make it.

One hundred per cent perfection is our aim and ideal, but we are not fooling the public or ourselves that this has been attained.

Ever since Adam succumbed to Eve, perfection is at least one half of one per cent from "arrived".

To disprove our claim it would be only necessary for one to find at least fifty errors or omissions for every ten thousand names, over twenty years of age, in the alphabetical section, who have been residents of this community for at least one year prior to publication.

The first one who can accomplish this, and forward the same to our address, will receive the next publication gratis.

THE CREDIT REPORTING COMPANY

have been furnishing a reliable service of advance information to retailers, wholesalers, banking and financial institutions to their entire satisfaction for a period of

Over a Quarter of a Century.

The value of this service cannot be measured by dollars and cents. It is far reaching and thoroughly reliable. It is an investment and not an expense. It is the barometer of trade and the safety valve of credits.

Our Special Credit Reports

give in detail Antecedent History, General Reputation, Resources, Worth, Character, Ability and Paying Habits of Individuals, Business Men, Firms and Corporations everywhere.

They show when customers begin going behind—when accounts are closed because they are too slow—when claims begin to reach the hands of attorneys and collectors—when suits are started and judgments entered—when mortgages are foreclosed and insolvency or bankruptcy proceedings started.

These and many other essential facts are given in our reports for the guidance and protection of merchants and credit grantors.

Our Representative Will Call Upon Request.

These are corrected annually by city engineers and personal investigation.

There are no other city maps published with such accuracy. The reason for this is that every street is canvassed for names for our city directories, at the same time verified and additions made.

Mr. H. J. Farnham, General Manager,
The Price & Lee Co.,
224 Market St.,
Newark, N. J.

Many thanks for your esteemed favor of Sept. 23rd, and your good will toward us in offering to furnish a Newark City Directory for use in our Directory Library.

Our Library comprises 250 directories and is located in the center of the Chamber right near the information desk. This desk supplies information to upwards of 1000 people daily, all of whom are familiar with the Directory Library and many of whom make valuable use of it. We consider the use of the Directories as one of the most important and general public; and inasmuch as San Diego is the "Birthplace of California" the place where western civilization began, this city is naturally a mecca for tourists as a consequence of which our information bureau and our directory library are of relative importance. It would be in any similar organization on the entire Pacific Coast.

We will therefore greatly appreciate having a copy of your directory and you may be sure that it will always be readily available to the general public.

M. J. Conner
Executive Secretary

IF there is a possible circulation of upwards of a thousand people daily in San Diego, California, what must the circulation be at intermediate points?

Directory libraries are maintained in all principal cities.

Reference Advertising

HE who buys space in the City Directory buys advertising permanency. Every day thousands of business men all over the country search its classified sections to find where nationally advertised goods may be purchased. City Directory ("Reference") Advertising is the completing girder in the bridge between dealer and consumer, and should be part of all national and local campaigns.
